

SmARt HandsOnly CPR

Cardiac arrest kills **1 person** every 2 minutes

Survival drops **10%** every minute without CPR

Only **35%** of victims get bystander CPR

3X HandsOnly CPR triples the chance of survival

FROM BYSTANDERS TO LIFESAVERS IN 60 SECONDS

Hands-Only CPR training delivered instantly

Proven Micro-Training Model

Award-winning AR Micro-Trainings already used by Fire Departments nationwide

Now bringing this proven model to CPR response

thru Augmented Reality

**NO APP REQUIRED
NO EQUIPMENT
NO INSTRUCTOR**

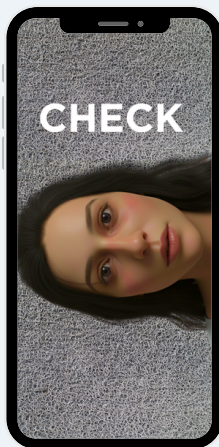

Now Applied to CPR

- Recognize cardiac arrest
- When to start CPR
- Correct hand placement
- Compression rhythm
- How to use an AED

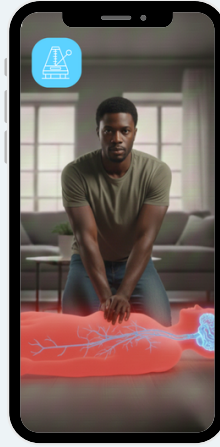

Training happens in the learner's real environment, making it more memorable and actionable.

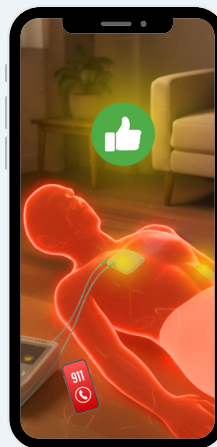

CARDIAC ARREST 101

CHECK FOR LIFE

COMPRESSION COACH

AED: PLACE THE PADS

LIFESAVER IQ

I CAN SAVE A LIFE SELFIE

Why This Works

- Drives measurable behavior change not just awareness
- Turns education funding into life-saving readiness
- Closes the confidence gap that stops bystanders from acting
- Immersive AR boosts learning retention by up to 90%
- Real-time data proves engagement and community impact
- Participants amplify the message through instant social sharing
- Seamless sponsor and partner branding integration
